| 100 | | CLX Communications | Enterprise Software |

The ranking is produced by Mind the Bridge in collaboration with ELITE as part of Startup Europe Partnership (SEP) initiative. The ranking is to be issued on a quarterly basis. SEP ELITE Tech Scaleup 250, SEP ELITE Tech Scaleup 500, SEP ELITE Tech Scaleup 1000 will follow.

The ranking is not an indicator of investment or business quality, rather a way to highlight some of the most active tech scaleups in Europe.

Inclusion in the ranking is based on an algorithm that factors capital raised by the company since inception and qualitative parameters analyzed in partnership with AI startup Zirra.
